

# SP-401P PORTABLE RUNWAY END LIGHT

MEDIUM  
INTENSITY

INDIVIDUAL LIGHT  
STATUS MONITORING

The S4GA portable runway light offers a reliable and versatile solution for temporary and emergency airfield lighting, designed for rapid deployment and efficient operation in all weather conditions.

## KEY FEATURES

- Rapid Deployment
- High Operating Time
- Radio-Controlled
- Weather-Resistant

## TECHNICAL SPECIFICATIONS

| Optics                         |                                                                                                                                                                                                                                                                                                                            |
